# 10 STEPS TO FLOOD AWARENESS

## 1. COASTAL CITIES FACE FLOOD RISK.

93% of properties on Miami Beach are located in a Special Flood Hazard Area, as mapped by FEMA. Miami Beach is reducing risk through elevating roads, a new stormwater system, and new construction regulations to build higher.

El 93% de las propiedades de Miami Beach se encuentra en un Área Especial de Riesgo de Inundaciones, tal y como lo indican los mapas de la Agencia Federal para el Manejo de Emergencias (FEMA, por sus siglas en inglés). Miami Beach está reduciendo el riesgo tomando medidas como la elevación de carreteras, un nuevo sistema de recogida de aguas pluviales y nuevas normativas para edificar más alto.

No circule con su vehículo ni vaya caminando por áreas donde haya inundaciones. Manténgase informado a través de las redes sociales y las alertas meteorológicas locales de Miami Beach.

## 4. KEEP YOUR HOME AND BELONGINGS DRY.

Consider elevating important appliances, like washers and dryers. Choose materials, such as tile flooring as opposed to wood, that are resistant to water damage.

Ponga en alto los electrodomésticos importantes como la lavadora y la secadora. Para los suelos o pisos elija baldosas en lugar de madera, ya que se trata de un material más resistente a los daños causados por el agua.

## 5. BUILD RESILIENTLY.

Follow the Florida Building Code to reduce flood risk. An elevation certificate provides your property's elevations, and can potentially lower your insurance premiums. The city may have these for properties built after 1995. Call 305.673.7610 to learn more.

Siga las normas del Código de Construcción de Florida para reducir el riesgo de inundaciones. Un certificado de elevación da la altura exacta de su propiedad y puede potencialmente reducir el costo del seguro contra inundaciones. Es posible que la ciudad tenga estos certificados disponibles para propiedades construidas después de 1995. Llame al 305.673.7610 para obtener más información.

## 6. OUR NATURAL SYSTEMS PROTECT US AGAINST FLOODS.
